A member of FAS Suite®—an integrated asset management solution.

For maximum performance and scalability in fixed asset management, FAS Asset Accounting *for SQL Server* provides advanced features and processing speed for larger businesses. FAS Asset Accounting *for SQL Server* delivers the same dependable depreciation calculations, financial reports, and detailed asset management as FAS Asset Accounting, but leverages the power of Microsoft® SQL Server to offer a scalable client/server architecture. If you're managing over 10,000 fixed assets, FAS Asset Accounting *for SQL Server* is your company's ideal solution.

Gain greater speed, flexibility and scalability.

- Alternative accounting periods including 13 period, 52/53 week, 4/4/5, 4/5/4, or 5/4/4 accounting
- Seven books, all visible on one screen—Internal, Tax, ACE, AMT, State, and two user-defined custom books
- Enhanced history tracking allows the capture of critical "before and after" asset conditions
- Faster processing times with the SQL Server and Windows NT® Server infrastructures
- Scalability with client/server architecture and support for multiple databases

(over, please...)
